The consideration under the Trust Contract will be the same as the issue size of the ABCP as at the Initial Benchmark Date.

The consideration and size of the ABCP was determined after arm's length negotiations between BEIED and China Industrial International Trust based on the value of the Underlying Assets.

China Industrial International Trust shall transfer the proceeds from the ABCP Issuance, being RMB1,000 million to the designated bank account of BEIED on the delivery date of the Underlying Assets.

THE UNDERWRITING AGREEMENT

For the ABCP Issuance, on 28 December 2022 (after trading hours), BEIED entered into an underwriting agreement with China Industrial International Trust and Industrial Bank, pursuant to which Industrial Bank as the underwriter will be responsible for the issue of the ABCP on NAFMII. The underwriting fee payable by BEIED is expected to be RMB1.5 million, the calculation based on an underwriting charge ratio of 0.05% per year and 3-year issuance period, which is determined by arm's length negotiations between BEIED and Industrial Bank with reference to issue size of the ABCP, the relevant PRC regulations and the prevailing market rate in relation to service fee payable to the underwriter in an asset securitization project.

FINANCIAL IMPACT AND USE OF PROCEEDS FROM THE ABCP ISSUANCE

Immediately upon the completion of the Disposal for the purpose of the ABCP Issuance, BEIED will cease to have rights or interests in the Underlying Assets. As at the Initial Benchmark Date, the unaudited carrying value of the Underlying Assets was approximately RMB1,000,027,900. It is anticipated that the proceeds from the ABCP Issuance would amount to approximately RMB1,000 million. As a result, the Company is expected to realize a net loss of approximately RMB27,900 from the ABCP Issuance, which represents the difference between the proceeds from the ABCP Issuance and the unaudited carrying value of the Underlying Assets as at the Initial Benchmark Date. The Group intends to use the proceeds from the ABCP Issuance for the repayment of existing debts and daily operations of the Group.

REASONS FOR AND BENEFITS OF THE ABCP ISSUANCE AND THE TRUST CONTRACT

The Board believes that the ABCP Issuance can diversify the Group's fund-raising channels to access low-cost capital, which in turn can be used to improve the financing structure of the Group and promote its operating activities and investments. It also allows the Group to achieve the goal of reducing the balance of accounts receivable and optimize the debt to asset ratio of the Group. Upon the Disposal for the purpose of ABCP Issuance, the Directors believe that it will accelerate the overall turnover of the Group's assets and increase the overall revenue generated. Furthermore, the proposed transfer of the Underlying Assets through this arrangement will accelerate the collection of the accounts receivable of the Group.

The Directors consider that the terms of the Trust Contract are on normal commercial terms and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.
