SUMMARY OF ELECTRICITY GENERATION VOLUME OF POWER PLANTS FOR THE FOURTH QUARTER OF 2023

This announcement is made by Beijing Energy International Holding Co., Ltd. (the “**Company**”, collectively with its subsidiaries, the “**Group**”) to keep the shareholders and potential investors of the Company informed of the latest business development of the Group. The board of directors of the Company announces that according to the Group’s preliminary operation statistics, the 200 power plants beneficially owned by the Group and its associates have generated electricity in an aggregate volume of approximately 3,631,699 megawatt-hours (“**MWh**”) in the fourth quarter (“**Q4**”) of 2023, and the aggregate electricity generation volume for the twelve months ended 31 December 2023 has amounted to approximately 13,781,366 MWh.

Details of the electricity generation volume statistics in Q4 of 2023 are summarised as below:

Settlement Type	Location	As at 31 December 2023				Approximate Electricity Generation Volume for			
		Number of Solar Power Plants	Number of Wind Power Plants	Number of Hydropower Plants	Number of Energy Storage Power Station	Approximate Grid-connected Installed Capacity (MW)	Q4 2022 (MWh)	Q4 2023 (MWh)	Twelve Months Ended 31 December 2023 (MWh)
I. Power plants held by the subsidiaries of the Company									
(i) Total capacity on-grid⁽¹⁾

TOTAL		142	29	28	1	9,152.67	1,899,235	3,631,699	13,781,366

Notes:

- (1) The total capacity on-grid mode refers to the settlement of all electricity volume generated by a power plant with the grid; while the surplus capacity on-grid mode means that a portion of the electricity volume generated by a power plant is sold directly to the end-user and the surplus electricity is settled with the grid.
- (2) The Group completed the acquisition of a total of three solar power plants and two wind power plants in Q4 of 2023.
- (3) Twenty three self-developed solar power plants, two wind power plants and an energy storage power station of the Group achieved grid-connection with installed capacity of approximately 1,019MW in total in Q4 of 2023.
- (4) The figures provided herein are subject to rounding adjustment and will be subject to other possible adjustments due to accounting procedures.

Shareholders and/or potential investors of the Company are hereby reminded that the information provided above merely represents the preliminary operating performance of the renewable energy power plants beneficially owned by the Group and its associates as of 31 December 2023 based on data currently available to the management, and is by no means a representation or a basis of reference or indication of the revenue or profit to be generated or derived by the Group or any financial performance of the Group in Q4 of 2023 or for the twelve months ended 31 December 2023. Accordingly, shareholders and/or potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

For and on behalf of
Beijing Energy International Holding Co., Ltd.
Zhang Ping
Chairman of the Board

Hong Kong, 29 January 2024

As at the date of this announcement, the executive directors of the Company are Mr. Zhang Ping (Chairman) and Mr. Lu Zhenwei; the non-executive directors of the Company are Mr. Liu Guoxi, Mr. Su Yongjian, Mr. Li Hao and Mr. Lu Xiaoyu; and the independent non-executive directors of the Company are Ms. Jin Xinbin, Ms. Li Hongwei and Mr. Zhu Jianbiao.
