Notes:

- (1) Some of the power plants of the Group increased grid-connection with further installed capacity of approximately 13MW in total in Q3 of 2025.
- (2) There was one solar power plant self-constructed by the Group, which achieved grid-connection with total installed capacity of approximately 9MW in Q3 of 2025.
- (3) The operation figures previously announced have been adjusted to be in line with the available accounting figures and to reflect the change(s) in the Group's portfolio of power plants with effect from each transaction's respective completion date.
- (4) The figures provided herein are subject to rounding adjustment and will be subject to other possible adjustments due to accounting procedures.

Shareholders and/or potential investors of the Company are hereby reminded that the information provided above merely represents the preliminary operating performance of the renewable energy power plants beneficially owned by the Group and its associates as of 30 September 2025 based on data currently available to the management, and is by no means a representation or a basis of reference or indication of the revenue or profit to be generated or derived by the Group or any financial performance of the Group in Q3 of 2025 or for the nine months ended 30 September 2025. Accordingly, shareholders and/or potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.
